CHALETINO

*Exceptional dimensions
creating exquisite rooms.*

Large rooms often invite people into choosing particularly wide planks. Our Chaletino planks create a lovely and elegant atmosphere with a width of 30 cm and length of 2.75 m. The oak surfaces of the Chaletino and Chalet planks are available in a range of finishes to suit the most varied of furnishing styles.

Thoroughly engineered design

The hardwood wear layer has a thickness of approx. 3.5 mm and the 3-layer design has been engineered for a long service life.

Bevelled on all four edges

All planks have a micro bevel of 1 mm at 45 degrees along all four edges. The bevel highlights the long length and breadth of these large boards. All boards are tongue & grooved on the long edge with loose tongue on the short end.

Technical details

- Width: 30 cm
- Thickness: 15 mm
- Hardwood wear layer: approx. 3.5 mm
- Middle layer: 8.0 mm
- Bottom layer: 3.5 mm
- Micro bevel: All four sides

→ Length: 2.75 m

→ Loose tongue

CHALET

*Your unique floor
designed by BOEN*

Your exclusive floor designed by BOEN's experienced floor designers for you to give a very special and unique floor made from European oak planks of widths between 200mm and 395mm and lengths of 2000mm to 4000mm, featuring knots and a lively colour variation. The engineered boards have a real oak wear layer of approx. 4.5mm thick and spruce centre and bottom layers to give a stable installation and suitable for underfloor heating.

Bevelled on all four edges

All planks have a micro bevel of 1 mm at 45 degrees along all four edges. The bevel highlights the long length and breadth of these large planks. All boards are tongue & grooved on the long edge with loose tongue on the short end.

SURFACES

With fifteen different colours and characters, there are many possibilities to choose between. BOEN Chalet and Chaletino planks are finished with "Live Natural" and dried in the air. This way, they are perfectly protected and the natural character of the wood is maintained. For questions regarding the care please ask for our cleaning and maintenance instructions.

So rustic so cosy – handcrafted planks. With a strong focus on craftsmanship and tradition we created three new floors with personality. A haptic and visual experience within the room achieved by handcrafted filled knots and cracks.

YOUR UNIQUE FLOOR DESIGNED BY BOEN

Interiors featuring wide planks provide a feeling of timelessness while inspiring us to create unique rooms. Production of Chaletino requires experienced craftsmen who are able to preserve the wood and protect its beauty. Precision in production and technology in surface treatments are necessary to achieve the required BOEN quality. With our roots going back to the 1600's, BOEN is an active participant in keeping traditions of outstanding craftsmanship alive.

With fifteen different colours, there are many possibilities to choose from, to create a room with a good feeling.

BOEN wishes you years of satisfaction with your selections!

BE INSPIRED

We make it easy for you to find your own personal interior design style. You can find inspiration, information and design tips for our style worlds Nordic, Rustic, Classic and Urban in our main catalogue or on www.boen.com

SO NATURAL
 SO IMPRESSIVE

Oak Nature, Chaletino

BOEN are proud of Chalet!

A Chalet floor combines BOEN's substantial experience in the design of quality structurally stable floors with the latest in surface treatment technology. Our natural oil is of the highest quality and based upon a combination of carnauba wax, candelilla wax, sunflower seed oil, soya bean oil and thistle oil.

In either a private home or a public environment, a Chalet oak floor will always impress and inspire. Raw materials used in the production of Chalet plank come from timber that is between 150 and 200 years old.

BOEN has its own timber specialists who select the correct qualities from the Baltic forests.

Four steps to installing a unique floor:

1. Select the colour of the surface.
2. Make a precise sketch of the room, including where the doors and windows are and send it to BOEN. For any possible query, please also include your contact address and telephone number.
3. You will receive a proposal for what the floor could look like.
4. If you wish to approve the proposal, then you just confirm as an order.

Under floor heating system

Chalet and Chaletino is suitable to be installed over under floor heating. Care should be taken as excessive subfloor heat may cause cracks between boards.

Each room - planned individually

Each room - planned individually Once BOEN have created your floor plan, simply follow the installation step by step. Each plank is labelled with its position in the floor and this makes laying the floor easy even if there are many different widths of planks. BOEN calculates precisely where each plank should be placed so that nothing is wasted.
